

TUDOR GLAMOUR
DATE 26 MM

TUDOR PRESS KIT – BASELWORLD 2013

The tango, possibly the most sophisticated, sensual and seductive of dance genres, is synonymous with seduction. And TUDOR's Glamour line reflects this passion.

In 2013 the Glamour line is stepping out in a new dance move. As seductive as a tango, as bewitching as the rhythms that carry the dancers in a sensual embrace, the new TUDOR Glamour Date 26 mm slips neatly into its place in the product line.

A striking expression of the brand's trademark retro-chic style, with its hallmarks of elegance and sophistication, the TUDOR Glamour line offers a broad range of features and functions: from the 42 mm Double Date models to the 36 and 31 mm Date watches and the 39 mm Date-Day models, the selection is exquisite and varied. A 26 mm model, an irresistible object of seduction, has now been added. Smooth, suave and suggestive, the latest newcomer to the TUDOR line will enhance the daintiest of wrists.

Waterproof to a depth of 100 metres (330 feet), and fitted with a self-winding mechanical movement, the new TUDOR Glamour Date 26 mm is offered in two versions, in steel or a gold-and-steel combination, with matching bracelet and a folding clasp, or on a black patent leather strap, also with a folding clasp.
