ARMIN One Week Collection – New Generation

ARMIN One Week Collection, equipped with the first hand-wound ARM09 calibre, which has been fully produced in its own Manufacture, displays its truly exclusive inner workings.

The Biel-based traditional manufacturer has now perfected its successful collection with the hand-assembled calibre and its various improvements. A new skeletisation of the bridge structure makes the differential gearing clearly visible. In addition, the power transmission within the watch movement has been optimized by appropriate adjustments. The newly developed dial has several levels, giving the watch greater depth. Like its predecessor, the latest generation of the ARMIN One Week Collection is available in a limited series of the elements: Water, Air, Earth and Fire.

TI10-WA.11 ONE WEEK AIR

Manufacture movement	ARMIN STROM calibre ARM09 mechanical hand-winding movement with 7-days power reserve, small seconds and decentred time indications Frequency: 18'000 A/h Jewels: 34 Number of components: 146 For more detailed calibre info, please see bottom of page
Case	Titanium Sapphire crystal and case back with anti-reflective treatment Diameter: 43.40mm Total height: 13.00mm Water-resistance: 50m
Dial ring	White with founded appliques
Hands	Stainless Steel
Straps	Delivered with a genuine white alligator horn-back strap and titanium ardillon buckle as well as an additional white rubber strap. A double-fold clasp in titanium is available on option
Edition	Limited to 100 pieces

ST10-WE.40 ONE WEEK EARTH

Manufacture movement	ARMIN STROM calibre ARM09 mechanical hand-winding movement with 7-days power reserve small seconds and decentred time indications Frequency: 18'000 A/h Jewels: 34 Number of components: 146 For more detailed calibre info, please see bottom of page
Case	Stainless steel PVD black Sapphire crystal and case back with anti-reflective treatment Diameter: 43.40mm Total height: 13.00mm Water-resistance: 50m
Dial ring	Black with founded appliques
Hands	Stainless steel
Straps	Delivered with a genuine black alligator horn-back strap and stainless steel PVD black ardillon buckle as well as an additional black rubber strap. A double-fold clasp in stainless steel PVD black is available on option
Edition	Limited to 100 pieces

SWISS WATCH MANUFACTURE

CALIBRE ARM09 **16½^{'''}**

Characteristics:

Functions:	Hour, minute, small second, power reserve indicator
Winding-mechanism:	Manual wind-up with crown wheels turning on the dial side
Impulse:	Twin mainspring barrels made of special brass alloy, specifically developed for brass-brass contact, main springs with a total length of 1800 mm and a blade strength of 0.088 mm
Gear train:	Through-hardened pinions, pinion leaves polished, wheels turned in non-abrasive manner and interlocking profile milled in the rolling procedure.
Plates and bridges:	Produced from thermally relaxed watch brass
Jewels:	Rubies individually produced for Armin Strom
Escapement:	Escape wheel and pallets made of massive gold with hardened functional areas
Regulating system:	Genuine screwed balance with gold screws, adjusting of the mass moment of inertia by four clamped steel screws, Breguet spiral curve
Frequency:	18,000 A/h
Number of Jewels:	34
Number of individual parts:	146
Diameter:	36.60mm
Height:	6.20mm
Power reserve:	7 days
