## ARMIN STROM Gravity Date Collection

Equipped with the new ADD14 calibre, the ARMIN STROM Gravity Date is the ultimate interpretation of the operation of the date display mechanism, offering a harmony of look and ease of use for the user. Achieving the balance required a watch hands mechanism that would guarantee maximum available transparency the dial face. The adjustment of the date is greatly facilitated by a 24-hours display situated on the same axis. It is thus possible to know the exact time within the 24-hour day and always keep your watch up-to-date. The ARMIN STROM Gravity Date is equipped with an automatic winding calibre with a microrotor and a 5-day power reserve. It is available in cases representing each of the four elements – Earth, Water, Air and Fire.
