## J12 CHROMATIC BAGUETTE-CUT DIAMONDS

Titanium ceramic, a new highly scratch-resistant material.

Hardness close to that of sapphire.

Its unique color and sparkle are obtained by adding titanium to ceramic and then polishing with diamond powder.

Self-winding mechanical movement. 42-hour power reserve.

Bezel, crown and hands in 18-carat white gold.

Functions : hours, minutes, seconds.

36 brilliant-cut diamonds (~3.47 carats).

Black dial with 12 baguette-cut diamond indicators (~0.52 carats).

Brilliant-cut diamond crown (~0.15 carats).

Triple-folding buckle and case-back in titanium.

Water-resistance : 50 meters.

Diameter : 41 mm.
