MADE-TO-MEASURE CREATIONS

DeLaneau is an independent watchmaking brand, dedicated to quality, craftsmanship and exclusivity. Our clients have the opportunity to have the timepiece of their dreams created especially for them.

Relying on the outstanding craftsmanship of our artisans, we set out to realize your made-to-measure timepiece. As individual as the spark of your imagination, so are our creations.

Together with you, we develop a one-of-a-kind piece reminiscent of grand haute couture. In the beginning, we consult with you in order to carefully embrace your vision. We then translate your vision into tangible sketches. Once we arrive at the ideal drawing, we dedicate ourselves to researching the perfect materials for the handcrafting of your creation.

Rightfully interpreting your dream is what drives our creation. Several months of research and design ensure that our work will match your vision exactly. We only use the finest gemstones, cuts and colours to meet your wishes. More than one hundred hours of outstanding craftsmanship render your original timepiece an independent and distinctive work of art, a pièce unique to tell your own inspiring story.

RONDO ICON

Pièce unique

This creation underlines our key signature of Grand Feu enamelling. Several techniques (miniature painting, Cloisonné, Champlevé, insertions of paillons) are combined with gem setting (302 diamonds) to depict a colourful and timeless icon. Complementing our heritage in jewellery watchmaking, the 42mm red gold case, with diamond-encrusted crown, is set with 36 baguette-cut diamonds and 288 brilliant-cut diamonds. This magnificent timepiece also features an automatic movement, an alligator strap equipped with red gold deploying buckle set with 56 diamonds. It totals approximately 6.55ct.
