

HARRY WINSTON®

HARRY WINSTON MIDNIGHT AUTOMATIC

Refined to the purest style, the Midnight collection sublimates the hours, focusing only on essentials. Harry Winston Midnight Automatic transforms sophistication into the ultimate in classicism untouched by time. Two central hands and a date window: watchmaking tradition expresses itself spontaneously. From the satin-brushed dial to the case finely crafted from rose or white gold, the Harry Winston Midnight Automatic watch is designed for men for whom elegance is a daily way of life.

Featuring a self-winding mechanical movement visible through the transparent case-back, the timepiece reinterprets the traditional codes of *Haute Horlogerie* with a frank and contemporary spirit. Witness the 42mm case that perfectly embodies the modern 21st century style. Its elegance is enhanced by a discreet, even minimalist aesthetic: the iconic Harry Winston arches modestly accent the crown, while the lugs taper to better follow the curve of the wrist. The simply polished bezel highlights a silver or champagne dial, adorned only by the traditional minute and hour hands. Their long shape is tapered to reflect light. At 6 o'clock, a window shows the date. The hour markers also feature the simplicity of the classic baton shape, with appliques at 3, 6 and 9 o'clock, while the Harry Winston insignia appears at 12 o'clock. The refined design is faultless, the visual equilibrium is ideal.

Simple yet sophisticated. Therein lies the brand's art of transforming time. In the true spirit of the Midnight watches, the Harry Winston Midnight Automatic revisits the brand's know-how and reveals its quintessential qualities, with a personality that adds its own style to a comprehensive collection, unique in its kind.
