

HARRY WINSTON®

Harry Winston Midnight 39mm

Classic and modern. In a word: Timeless. The Midnight Lady watch lives in an aesthetic universe steeped in authenticity and purity. Available in two sizes, it is designed for women who want a watch to accompany them every day, whose style intuitively embodies a brand synonymous with elegance and refinement.

Incredibly feminine. The grace that emanates from the Midnight Lady models is fascinating. The design reduced to its purest expression proves that beauty also knows how to shine in its simplest form. Only a few brilliant-cut diamonds add their crystalline sparkle, discretely echoing the House's jewelry expertise. Dressed in rose or white gold, gem-set or unadorned, the case features slender lugs. The slim shape of the 32 or 39mm case sits delicately on the wrist and fits like a second skin. The three Harry Winston arches have been reworked to melt seamlessly into the smooth lines of the case, next to the crown. The delicate bezel forms a thin border that underscores the natural elegance of the watch. The impression of lightness is undeniable, and the harmony of the ensemble gives time a rare distinction.

Slender and graceful, the hour and minute hands are faceted to catch the light. Naturally placed in the center, they sweep over a rosé champagne or grey colored dial that shimmers with the subtle glow of four hour-markers underscored with brilliant-cut diamonds. The sunburst satin finish flirts with the glinting light. In the gem-set version, the extremely pure aesthetic is lit up by a bezel paved with brilliant-cut diamonds.

Either delicately set or unadorned, Harry Winston Midnight Lady watches make sobriety and candor their finest embellishment. Featuring an alligator or satin strap, the watches change character without ever losing their identity. Like the modern woman, they go to the essence, transforming time into a valuable accomplice they cannot do without. Faithful partners every day, exquisite companions at elegant parties, the Midnight timepieces are a must-have expression of traditional watchmaking revisited by Harry Winston.
