## PREMIER LADIES BRILLIANT-CUT DIAMONDS

### ***A sumptuous new installment in a story of iconic glamour***

This autumn, Harry Winston is reinterpreting the sophisticated aesthetic codes of its legendary Premier collection with the launch of two spectacularly beautiful, quintessentially feminine, diamond encrusted versions of the Premier Ladies range: the Premier Ladies Baguette-Cut Diamonds and the Premier Ladies Brilliant-Cut Diamonds.

From sunrise to sunset, as the sun moves from east to west, its shadow slowly crosses the face of the dial. With the creation of the Premier Ladies Baguette-Cut Diamonds, Harry Winston transposes the concept of oldest known time measurement device and the most ancient of scientific instruments, and combines it with 156 baguette-cut diamonds in a unique sunray pattern dial with a total carat weight of 26.29 carats. The result is a masterpiece whose radiant depths reflect the mystery of time for women of extreme sophistication.

### ***Pristine snowfields and crisp winter days***

Reminiscent of the sun sparkling off a pristine snowfield on crisp winter days, the Premier Ladies Brilliant-Cut Diamonds boasts a snow set dial embedded with 374 of the finest quality brilliant-cut diamonds. With a total carat weight of 9.95 carats, this is an eloquent tribute to the glamour, refined elegance, unparalleled setting expertise and unique diamonds that are hallmarks of the brand known as the King of Diamonds, providing the perfect partner for days and nights in exceptional places.

### ***Nothing sparkles like a Harry Winston diamond***

Nothing sparkles like a Harry Winston diamond and these gem-set masterpieces represent time-intensive, careful work by the best master setters, whose incredible talent and attention to detail infuse even the finest diamonds, for which Harry Winston is famous, with greater sparkle.

With sword-shape faceted hands elegantly indicating the passing of hours and minutes, both the Premier Ladies Baguette-Cut Diamonds and the Premier Ladies Brilliant-Cut Diamonds are housed in a gleaming 18 carat white gold, 36mm diameter case, and characterized by the flowing aesthetic, delightfully slender silhouette and resolutely modern appeal of their predecessors. The case of the snow dial option is set with 67 brilliant-cut diamonds, while its sunray counterpart has 52 baguette-cut diamonds. Both are integrated with a precious 18-carat white gold
