

Harry Winston Midnight Moon Phase

Harry Winston takes classic, elegant timing for women to an all-new level with its captivating Midnight Moon Phase timepieces.

Part of the Harry Winston Midnight CollectionTM, these oneiric inspired timepieces offer a romantic interpretation of the moon phase complication. Via an arc-shaped crescent-moon aperture that stretches from 9:00 to 12:00, the moon and stars appear from behind the branches of trees that are meticulously engraved and lavishly finished in contrasting lacquers on the dial.

This delicate and soothing décor pays tribute to nature and time itself, and makes for a discreetly clandestine meeting between the wearer and her ultra-feminine timepiece. Harry Winston has always been in parallel harmony with nature, from the purest diamonds of the earth that it uses, to the dazzling works of art that arise from these stones. The bewitching Midnight Moon Phase reinforces this part of the brand's DNA.

Offered in either 18-karat rose gold or 18-karat white gold, each of these two alluring timepieces magnificently displays an enthralling contrasting dial and tree motif. The 18-karat rose gold version features a rosé Champagne dial with a sunray satin brushed finish. The engraved tree is delicately filled with rose hued lacquer for enticing appeal and a superb tonal effect. The 18-karat white gold model features a silver dial with a sunray satin brushed finish; the engraved tree is lacquered in an almost pearl-white hue that exudes a shimmering, ethereal effect. Both distinctive dials are set with indexes from 3 o'clock to 9 o'clock that emulate the stars in the sky (brilliant-cut diamond indexes are set at 3, 6, and 9 o'clock, and round pearls of 18-karat gold form the 4, 5, 7, and 8 o'clock indexes). From 10 o'clock to 2 o'clock, long, tapered indexes represent sun rays. A small round aperture above 6 o'clock discreetly displays the date.

Bringing the charming motif full circle, Harry Winston adorned the 39mm case of the Midnight Moon Phase with 91 brilliant-cut diamonds – for a total of 95 brilliant-cut diamonds (weighing approximately 0.97 carats). At 3 o'clock, enhancing the diamond-set crown, three larger diamonds represent the iconic Harry Winston arches evoking the famous façade of the flagship Harry Winston salon in New York.

Embodying the spirit of the Midnight Collection, the Midnight Moon Phase reveals Harry Winston's quintessential commitment to detail, beauty and timeless elegance.
