

Le temps de *L'IMAGINAIRE*

DRESSAGE *L'heure masquée*

With the *Dressage L'heure masquée* watch, time appears in its full immensity, opening up infinite vistas of individual freedom and affording a permanent opportunity to make the “great escape” and to seize only the moments that truly count.

The mischievous hour hand remains hidden beneath the constantly moving minute hand, solely deigning to appear at a deliberate press on a crown-integrated pushbutton. This fleeting apparition captures exclusively the moment in hand and vanishes as soon as the pressure is released—as too does the dual-time window display caught up in the same game of hide and seek. This playful stage-setting is orchestrated by the ingenious interaction of the rack, pinion and gear trains. When stimulated, the hour cam releases from its hiding place the hand that dutifully appears to perform its role of pointing to the correct hour on the dial. The dual-time indication is directly driven by the base movement and adjustable via the pushbutton opposite the crown.

In this entirely Manufacture-made composition, self-winding Calibre H1925 is equipped with an exclusive patented mechanism enabling it to play this uniquely personal musical score.

MOVEMENT

Type	Hermès mechanical self-winding movement H1925
Power Reserve	45 hours
Jewelling	28 jewels
Frequency	28'800 vibrations per hour / 4Hz
Decoration	Circular-grained and snailed mainplate, satin-brushed bridges and oscillating weight adorned with the special Hermès decoration (H symbols)
Diameter	26 mm (11 ½'')
Thickness	3.7 mm
Functions	Hours, minutes, GMT, «time veiled» function, push-button integrated to the crown serving to unveil the hour hand and the GMT window, pushpiece at 9 o'clock serving to set the GMT

	Time varied mechanism
Diameter	32.5 mm
Thickness	2.7 mm
Jewelling	18 jewels
Components	95

Shape/dimensions	Cushion-shaped, 40.5 x 38.4 mm
Material	5N 750 rose gold (\approx 85 g)
Crystal	Glare proof sapphire crystal and case-back
Inter-horn width	21 mm
Water-resistance	To 5 atm

DIAL Opaline silvered dial with vertical central guilloché motif,
4N-gilded stamped Arabic numerals,
4N-gilded diamond-polished hour-marker at 6 o'clock,
4N-gilded hands coated with Superluminova

BUCKLE	17 mm safety folding clasp in 5N 750 rose gold (≈ 24.87 g)
---------------	--

STRAP Matt havana alligator

EDITION Limited to 500 pieces
